

Into the Maze We Go!

A Day of Challenges, Teamwork & Triumph!

Spring 1

The Crystal Maze Enrichment Day Special!

A Whole-School Adventure Full of Fun, Teamwork & Challenge

Our school was buzzing with excitement as pupils stepped into their very own version of The Crystal Maze! Mixed-class teams travelled through a series of themed zones, each flying the flag of a different country, and took on challenges that tested their senses, teamwork and problem-solving skills. Passports were stamped, points were earned, and the laughter could be heard down every corridor!

Welcome to the Zones!

Zone 1 - Observation

Pupils entered a room packed with objects and had just moments to memorise everything before returning to spot what had changed.

This boosted memory, focus, and attention to detail, while encouraging pupils to support each other, great for mutual respect and social development.

Memory skills

Team-spirit

High-Energy

Zone 2 - Listening & Darts

A mix of listening challenges and a darts game kept everyone on their toes.

Pupils practised careful listening, coordination, and turn-taking, linking beautifully to British Values like fairness and respect.

Creative challenges

Spatial awareness

Zone 3 - Orientation

Wearing special goggles that distorted their vision, pupils navigated a colourful cone course, collecting specific colours along the way.

This encouraged resilience, spatial awareness, and lots of cheering each other on—perfect for SMSC and building confidence.

Five senses

Sensory exploration

Zone 4 - Touch & Taste

Mystery textures... surprise flavours... lots of brave volunteers!

Pupils used descriptive language, curiosity and teamwork to identify each item, supporting science, vocabulary, and cultural awareness.

Laughter and teamwork

Shared responsibility

Zone 5 - Maths Memory

Using blocks and shapes, pupils solved maths challenges and recreated patterns from memory.

This strengthened logical thinking, geometry, and problem-solving, while encouraging teams to agree strategies—linking to democracy and shared decision-making.

Respect and encouragement

Resilience

Mathematical reasoning

Zone 6 - Physical Skills Zone

Fine motor, gross motor, balance, throwing—this zone had it all!

Pupils worked together, encouraged one another, and celebrated every success, supporting PE skills, teamwork, and positive social interaction.

Immense experience

Hands-on learning

Passports, Points & The Final Crystal Maze!

Problem-solving

Every time a team completed a challenge, they recorded their points in their special passports. These points were then converted into precious minutes for the final event: our very own Crystal Maze dome, built from garden covering and powered by a leaf blower!

Whole school buzz

Maze madness

Inside the swirling “wind tunnel,” pupils grabbed as many red strips as they could to win prizes. The excitement was huge, and the teamwork was fantastic to watch.

Confidence building

What a Day!!!

- Stronger teamwork and communication across mixed classes
- Improved resilience, confidence, and willingness to try new things
- Development of British Values through fairness, respect, turn-taking and shared responsibility
- Rich SMSC experiences, from supporting friends to celebrating success
- Curriculum benefits across maths, science, PE, listening skills, memory, and problem-solving
- A brilliant sense of fun, adventure and whole-school community spirit
